- Conveyors
- Skip Hoists
- Drying Racks
- Elevators
- Stackers
- Finger Cars
- Loaders
- Unloaders
- Spade Drive

INNOVATION THAT NEVER RUNS DRY!

POSIDYNE CLUTCH BRAKES
The Posidyne Clutch Brakes have been used since the early 70’s as a main drive and vibrator drive on some of the major concrete block making machines. Why?
- Extremely long life
- Minimal maintenance—no adjustment, simple fluid check
- Consistent acceleration
- Quick response
- 5-10 times longer life than competitive Clutch Brakes

REPLACE THAT WARNER CLUTCH BRAKE

Replace that old Warner clutch brake on the older model Besser machines with a Posidyne retrofit package. Everything you need to upgrade to an oil shear block machine main drive.
- Oil Shear Technology provides 5-10 Times Longer Life
- Smoother Operation
- No regular Maintenance
- No Adjustment—Ever!
- Totally Enclosed Sealed Housing

For Parts & Service Call 800-829-3244
Email info@forcecontrol.com

POSISTOP MOTOR BRAKES—MOTORS NOW AVAILABLE
Replace that old Warner Brake with an Oil Shear Posistop Brake
- Totally enclosed design
- Incorporates Oil Shear Technology
- Improved counterweight dropping
- Improved phase control
- Reduced cycle time
- Reduced motor starting torque
- Improved block quality

REPAIR / REBUILD
When it comes to repairs come to the original. Replacing a few parts usually means reduced life, and the additional cost to do it again. Get it rebuilt properly:
- New factory warranty from the original manufacturer
- Original OEM parts
- Expedited repair and delivery service
- OEM Rebuild kits available
- Expedited Service – Next Day – Same Day

ERS EMERGENCY RESPONSE SERVICE
Force Control stocks complete rebuilt Posidyne clutch brakes at several locations around the country ready for immediate shipment.
- Receive the new Clutch Brake
- Remove old and install new unit
- Return old unit in reusable crate
- You have a full factory warranty
