

UPGRADE TO CLUTCHES & BRAKES WITH OIL SHEAR TECHNOLOGY

No Adjustment or Regular Maintenance
Reduce Downtime—Increase Production

GO OIL SHEAR TECHNOLOGY

MAGNASHEAR MOTOR BRAKE

POSITORQ WINCH BRAKE

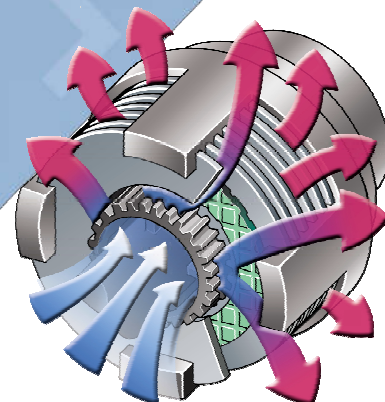

POSIDYNE CLUTCH BRAKE

The benefits of Oil Shear Technology

- Totally Enclosed Sealed Design
- 5 to 10 Times Longer Life
- No Adjustment—Ever!
- No Regular Maintenance*
- No Torque Fade
- Higher Cycle Rates
- Reduced Down Time
- Operational Cost Savings

**Annual fluid change recommended for maximum performance and life.*

Force Control Brakes Featuring Oil Shear Technology

Posidyne Clutch Brake

Air Actuation With encoder
and manifold mounted valve

Posidyne Clutch Brake

Hydraulic Actuation
Marine Duty

MagnaShear

Spring Set—Electric Release
Motor Brakes—Blower Motor

MagnaShear

Spring Set—Electric Release
Low Temp. Motor Brakes

Posistop

Spring Set—Air/Hyd. Release

Posistop X Class

Spring Set—Air Release

Posistop Foot Mount

Spring Set—Air or Hydraulic
Release

Posistop

Spring Set—Air Release
Servo Motor Brake

Positorq

Dynamometer Load Brake
with cooling and load cell

Positorq

Dynamic Stop—Continuous Slip
Drawworks Brakes

Positorq

Hold, Dynamic, Continuous Slip
Mooring, Anchor Winch Brakes

Positorq

Forced Lube Cooling Unit
With Hydraulic Actuation
